

OUTPUT: PRACTICAL-12

Vision & Mission

Vision

To be a leading institution in engineering education, research, and innovation, producing globally competent professionals and entrepreneurs.

Mission

- To provide quality education through innovative teaching-learning methods.
- To promote research and industry collaboration.
- To nurture ethical and responsible engineers for a sustainable future.

Program Specific Outcomes (PSOs)

PSO1: Apply engineering knowledge to design and develop software and hardware systems.

PSO2: Analyze and solve real-world problems using modern tools and technologies.

PSO3: Exhibit leadership and teamwork skills with professional ethics.

Courses Offered

Computer Engineering

Focus on AI, Data Science, and Software Development.

Electronics & Communication

Learn VLSI, IoT, and Communication Systems.

Mechanical Engineering

Explore design, manufacturing, and automation technologies.
